ABOUT US

The Virgo Group of companies constantly looks out for innovation and challenges in the industry. Across all its group companies, it maintains a philosophy of reaching out to perfection, no matter what it takes, whether high-end resources or a superlative manpower. With a team size of over 3000+ employees, Virgo Group's employees spread all across the nation are working together in a rewarding environment to achieve the objectives the company was founded upon. Long before, government-issued regulations concerning the protection of the environment, Virgo Group had already invested in "Environment Friendly" initiatives. These included reforestation programs and elimination of the use of tropical woods and harmful, ozone-damaging chemicals. Weighing its actions on a philosophical pedestal, Virgo today has evolved into a dynamic group that has been generating optimum profit through total satisfaction of customers, suppliers, employees and society.

100% COLOR CORE PVC LAMINATES

Laminates made with matching layers of colors throughout are called color core laminates. These laminate sheets are mostly used to eliminate the dark seams, which appear on the edges & joints of regular laminates. Color core laminates are known for the consistent, edgeless, and seamless look they give to furniture. Our color core range is available in Glossy and Matt finishes with a wide range of vibrant color options to choose from. The application potential of color core laminates is as vivid as your imagination. Apart from the basic applications, these surfaces are ideal for every space as these are highly functional and durable. These surfaces also resist scuff marks, scratches and stains under normal use.

90° BENDING PROCESS IN PVC LAMINATES

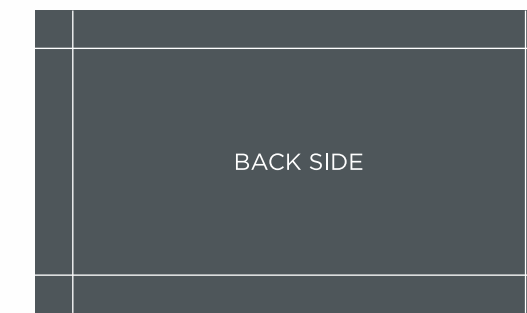

EDGE BAND TAPES NOT REQUIRED

STEP
01

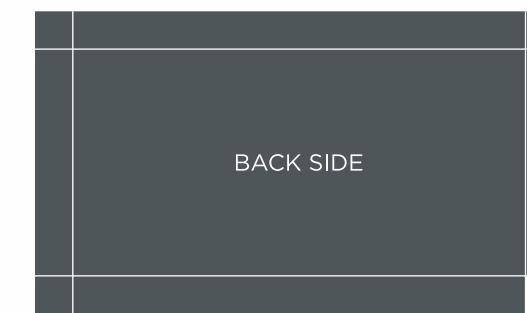

Cut your sheet as per your desired size and shape.

STEP
02

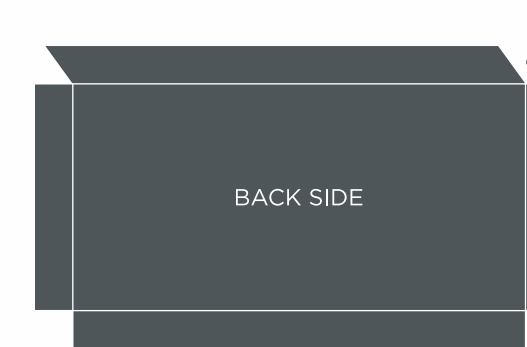

Use a V-groove cutter (available easily in the market) to mark a groove on the sheet.

STEP
03

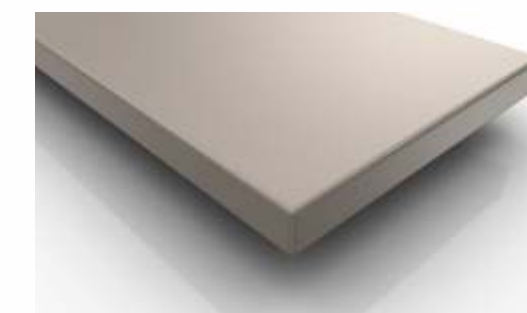

Next, use a regular pair of scissors to trim the edges out.

STEP
04

Place the sheet front up and use the groove marks to bend the sheet towards the outside.

STEP
05

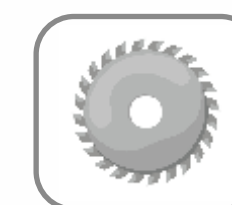

Now your sheet is ready to be used.

Diamond cutter blade

For cutting, routing and drilling, we only recommend using a diamond cutter blade. To avoid any burrs during cutting, ensure all the blades are sharp. A smooth file can be used to feather all the corner edges.

Router blade

For cutting, routing and drilling, we only recommend using a diamond cutter blade. To avoid any burrs during cutting, ensure all the blades are sharp. A smooth file can be used to feather all the corner edges.

CLASSY AND MODISH DESIGNS FOR YOUR INTERIORS

KITCHEN INTERIORS

Available in bright colors and dazzling designs and exquisite finishes, PVC Laminates have become a new trend for kitchen interiors. Zero edge banding paired with 90° bendability, Virgo's PVC laminates are an exceptional addition to modern kitchens.

LIVING ROOM INTERIORS

Make your living spaces livelier with our magnificent range of flexible PVC laminates that can transform ambiances by seamlessly gelling up with the overall decor and furniture style.

BEDROOM

A bedroom is a place where everyone desires comfort and security, which is why Virgo has developed this surreal and splendid collection of PVC laminates, which promises to enhance your bedroom's aesthetics beyond belief.

RESTROOM

Enhance the comfort and elegance of your private spaces with our immaculate range of laminates that fulfils all your stylish and functional requirements..

RECEPTION

Make a grand and welcoming first impression by redefining your reception and front desk areas with aesthetically pleasing surfaces brought to you by Virgo.

OFFICE INTERIORS

Every workplace should be worthy to match the style quotient of its inhabitants. With Virgo's premier offering of spectacular surfaces, your office interiors will never be the same.

OTHER APPLICATIONS Hospitality, Commercial Spaces, Residences, Educational Institutes, Retail stores, Automobiles, Exhibitions and Events, etc.

TECNICAL SPECIFICATION

● THICKNESS -

1.2mm, +- 10% Standard

● SHEET SIZE -

1220mmx2440mm [Standard]

● SIZE OPTION -

Length - Any [On Request]
Width - Upto 1220mm

● RANGE -

Our PVC Laminates are available in a variety of range. Customized sizes & shades can be developed on request.

● ADHESIVE -

These laminates are easy to apply with the standard laminating system, including most of the conventional adhesive normally used with plastic laminates such as many water based and solvent based. We do not recommend the use of heat activated adhesives.

● LAMINATION -

Proper Substrates must be used and careful bonding procedures must be observed. Substrates should, be of good quality plywood, high density particle board, high Quality Fiber board, or PVC board. The Face of the substrates must be smooth and free of grease, wax, dust, chips and other foreign matter.

We do not recommend any kind of cost like PU base, Melamine, lamination (wax) on our. This application will spoil the originality and natural beauty of the High Gloss PVC Flexible Sheets.

● CUTTING & INSTALLATION -

Cutting & Installation: These High Gloss PVC Flexible Sheets can be cut, routed and drilled with most standard wood working too, or equipments. All blades must be sharp, to remove any burrs that may occur in the cutting process we recommend the use of a smooth the to leather all corner edges.

● BENDING AND FORMING -

These laminates can be bend and all radius bending should be handled in the same manner as all grades of non post forming decorative laminates.

Use only V-Groove cutter to bend the sheets at 90 degree. In case of any difficulty please contact us.

● MAINTENANCE -

Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the High Gloss Flexible Sheets. We recommend to use only clean water for cleaning of sheets.

Note: Virgo warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In case of any claim, the liability of the company is only limited to the cost of the product only. These may be color variations from batch to batch. The sample swatches in the catalogue represents the designs, colours and ruches. They do not represent the Actual sheet.

KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.
