THE PERCEPTION OF

# DESIGN

## PLEASANT DEPICTION OF BRILLIANT SURFACES

This collection brings decorative laminates enriched with designs that elevate the interior of a space by breathing life into the ambiance with its captivating appeal.

## Why PVC Laminates?

Laminates made with matching layers of colours throughout are called color core laminates. These laminate sheets are mostly used to eliminate the dark seams, which appear on the edges & joints of regular laminates. Color core laminates are known for the consistent, edgeless and seamless look they give to furniture. Our colour range is available in Glossy and Matt finishes with a wide range of vibrant colour options to choose from. The application potential of colour core laminates is as vivid as your imagination. Apart from the basic applications, these surfaces are ideal for every space as these are highly functional and durable. These surfaces also resist scuff marks, scratches and stains under normal use.

80x100

Actual Sheet Thickness

### INSTALLATION PROCESS & STEPS

#### STEP : 1

Cut your sheets as per your desired dimensions

#### STEP : 2

Use v-groove cutter to mark a groove (to bend) on the sheet

#### STEP : 3

Next use a regular pair of scissors and trim the edge out

#### STEP : 4

Place the sheet front up and use the groove marks to bend the sheets towards outside

#### STEP : 5

Now your sheet is ready to be use

### TOOLS & DEVICES TO BE USED

Diamond Cutter Blade

Circular Saw Blade

Virgo PVC Laminates can be cut, routed and drilled with the same standard tools which are mostly used in wood works.

(We recommend using diamond cutter blade for cutting V-Groove cutter for bending up to 90 Degree)

All blades must be sharp to remove any burrs by cutting process. Use a smooth file to feather all corner edges.

### PVC SPECIALITIES

BORDER / TERMITES RESISTANT

EASY TO CLEAN

ENVIRONMENT FRIENDLY

LEAD FREE

HARMFUL EMISSION FREE

WATER RESISTANT

NON TOXIC

## FINISHES OPTIONS

Our collection in all-new designs embraces the opulent charm of minimalistic ornamentation to present your spaces with sartorial elegance. The finishes transform them into a luxurious treat with the surreality of subtle shades and distinctive sumptuousness that seamlessly blends into your spaces. The subtle and lavish excellence of these finishes are available in an ultra-luxurious finish for customized spaces oozing exceptional luxury and brilliance for refined interior style and elegance.

**Thickness :** 1.2 mm, ± 10% Standard

**Sheet Size :** 1220 x 2440 mm (Standard)

**Size Options :** Length - Any on request, Width - Up to 1220 mm

**Range :** Our PVC Laminates are available in a variety on range. Customized sizes and shades can be developed on request.

**Adhesive :** These laminates are easy to apply with the standard laminating system, including most of the conventional adhesive normally used with plastic laminates such as many water based and solvent based. We do not recommend the use of heat activated adhesives.

**Laminates :** Proper substrates must be used and careful bonding procedure must be observed. Substrates should be of good quality of plywood, high density practical board, high quality fiber board or PVC board. The face of substrates must be smooth or free of grease, wax, dust, chips and other foreign matter. We do not recommend us of PU base, melamine, lamination (wax) on our laminates. The application of these will spoil the originality and natural beauty of High Gloss PVC flexible sheets.

**Cutting & Installation :** These high gloss PVC flexible sheets can be cut, routed and drilled with most standard wood working tools or equipments. All blades must be sharp to remove any burrs that may occur in the cutting process. We recommend the use of a leather to smooth all corner edges.

**Bending & Forming :** These laminates can be bent and all radius bending should be handled in the same manner as all grades of non post forming decorative laminates. Use only V-Groove cutter to bend the sheets at 90°, in case any difficulty please contact us.

**Maintenance :** Any cleaning agent containing acids, alkalis or abrasive should not be used to clean the high gloss flexible sheets. We recommend to use only clean water for cleaning of sheets.

**Note :** Virgo warrants that all its products are free from manufacturing defects and perfectly ideal for use in normal conditions. In any case of claim, the liability of the company is only limited to the cost of the product only. This may be color variations from batch to batch. The sample swatches in the catalogue represents the design, colours and ruches. They do not present at the Actual sheets.

## CARE & MAINTENANCE

As aforementioned, PVC laminates are easy to clean and maintain. But for a healthy and longer life of the laminate, you need to follow the basic dos and don'ts during its maintenance.

### DOs

- Always prefer diluted mild liquid detergent or organic cleansers for cleaning.
- Use soft damp clothes for wiping.
- Wipe off the spills immediately, if they happen.
- Treat any difficult stains with a mixture of water and baking soda.
- Dry clean the surface after cleaning to prevent marks on spots.

### DON'Ts

- Avoid cleaning agents containing acids or any harsh chemicals.
- Avoid cleaners that leave behind a soapy residue.
- Avoid excessive scrubbing as it can damage the surface.
- Avoid abrasive cleaning tools like steel scrubbers, knives or any sharp objects, as they can leave scratch marks on the laminate surface.

**KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.**
